# HEALTH INSURANCE CLAIM DECISION

SYNTHETIC SAMPLE DOCUMENT — FOR SOFTWARE TESTING ONLY

| | |
|---|---|
| **Fictional insurer** | Northstar Health Assurance (not a real insurer) |
| **Claim reference** | NHA-DEMO-2026-0148 |
| **Policy number** | DEMO-POL-000123 |
| **Policyholder** | Aarav Mehta (fictional person) |
| **Date of letter** | 1 November 2026 |
| **Claim amount** | INR 85,000 |

## Subject: Decision on your hospitalisation claim

Dear Mr Mehta,

We have reviewed the hospitalisation claim submitted under the above fictional policy. Based on the information currently available in this demonstration case, Northstar Health Assurance is unable to approve the claim in its present form.

## Reasons for rejection

**1. Pre-existing condition not disclosed:** The medical records submitted with the claim refer to a history of hypertension before the policy start date. The proposal form available in our records does not list this condition. Our stated reason is: *“The pre-existing condition was not disclosed in the proposal form.”*

**2. Waiting period:** The treatment documents indicate that the hospitalisation occurred before completion of the waiting period stated in the schedule supplied for this fictional policy. Our stated reason is: *“The applicable waiting period has not been completed.”*

## Documents considered

For this synthetic example, the review refers to the claim form, the hospital discharge summary, the medical history submitted with the claim, and the fictional policy schedule. No real policy wording or actual person's medical information is represented in this document.

## Request for review

If you believe any information has been misunderstood or that relevant documents were not considered, you may submit a written request for review with supporting documents. Please quote the claim reference shown above in your correspondence.

Yours faithfully,

**Claims Review Department**
Northstar Health Assurance
(Fictional insurer)

END OF SYNTHETIC SAMPLE. This document is fictional and must not be used as an actual insurance decision, legal notice, or evidence in a real claim.
